William Flood (left) and Mary Jones Flood (below) are buried in a small family cemetery near Cropper, Kentucky in Shelby County. From Cropper, drive south on the Flood Road for 7/10 mile. At exactly 7/10ths a mile from Cropper there is an old abandoned L&N Railroad bed on the left. It looks like a farm road, but you can tell it is a railroad bed by the coal in the path. Take the railroad bed back 4/10ths mile. You can drive 2/10ths. At 2/10ths the railroad bed (at the time I visited) is blocked off by a fence. You can follow the field for another 2/10ths mile to a small grove of trees. The cemetery is fenced in. The only two tombstones that I could find where those of William and Mary. According to Shelby County cemetery records Emaline Ogden Flood, daughter-in-law of William and Mary and there son, Joseph Lee Flood's third wife, is also buried there.
